

40 ACRE EQUESTRIAN COMPOUND

Designed by Jonathan L. Foote, AIA and built by On Site Management in 1996, the house "is nestled down so it doesn't invade the land" explains Jon Foote to Architectural Digest. The house was published in June 1999. Jonathan Foote pioneered current trends of historic renovation and regional design. He is noted for the innovative reuse of indigenous hand hewn timbers, stone and siting of buildings in their natural environment. The perfect little ranch that will capture your heart and soul. The house, pond, Bridger Creek, Barn and Indoor Arena, Guest Quarters, Garage/shop, and 2 Outdoor Arenas are all perfect with views of the Bridger Mountains.

6439 TEPEE RIDGE ROAD
